MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Report of School of Intelligence and
World Affairs No. 26, 25 June - 1 July 1971

COURSE ACTIVITIES

1. Orientation Program for Nominees to Senior Schools and Universities

Thirty-two of some 40 Agency nominees selected for senior military and Federal schools, and private universities attended the 28-30 June orientation program. Two days were held at Glebe and the final day was on the 7th floor of Headquarters. The major parts of the three-day orientation were: (1) an updating on major world problems -- Vietnam/Laos, Soviet military strength, Communist China, and the Middle East, with additional discussion of developments in the Intelligence Community and the Agency's relationships with Congress; (2) talks by selected alumni from the National, Naval, and Air War Colleges, the FEI, and the AMP at Harvard; (3) a discussion by Professor [redacted] on briefing and conference techniques; and (4) a meeting with the Agency's top leaders -- the four Deputy Directors and Colonel White.

The 27 students who submitted critiques generally reacted favorably. [redacted] received a strong endorsement from most of the class. Several students suggested: (1) that the academics should probably receive a separate and different type of program and (2) that possibly the AIS, rather than a three-day program, might be made the requirement for those selected for these senior schools and universities.

2. Intelligence and World Affairs

[redacted] has agreed to give his talk to the IWA on domestic versus foreign priorities which was so favorably received in the last AIS. [redacted] will again make the "distinguished alumnus" presentation on 6 August.

BRIEFING ACTIVITIES

1. External Briefings

25X1A9a

On 30 June, at the AID Training Center, [redacted] briefed on CIA for 25 students in the AID Orientation.

On 30 June, at FSI, [redacted] gave a briefing on CIA and showed the film "Need to Know" for 45 military reservists. The reservists are attending a two-week area course given by FSI's Center for Area and Country Studies. They are members of the 356th Civil Affairs Area in the Bronx, largely professional men trained in medicine and the law, and -- judging by the question period -- an intelligent and delightful group of men.
